Brian,

Ted Bean reached out to me today to thank us for the Trumpet order and inquired how we were making out with the PFAS issue. I asked him what Permethrin product he bid for Maryland. His response was:

Dan,

We bid Permasease 30-30 @ \$67.22 / gallon. It is the Adapco brand. I have attached the letter from the folks that formulate the product for us .

I agree the PFAS issue has many layers and I do not have enough knowledge on the subject to comment.

Have a great weekend !

Ted

Attached is the letter he included from his formulation company. It may be of interest to you. Thanks.

Dan
